

Lanark Leeds & Grenville Addictions & Mental Health Suicide Bereavement Support Program

Have you lost a family member, loved one or friend by suicide? Do you feel stuck in your grief? This is a grief that can be complicated and feel quite different than other kinds of losses.

This type of loss can have a much more intense and traumatic impact to our thoughts and feelings.

It can affect all areas of our lives such as cultural, spiritual, social, personal relationships and even our physical health.

This group will give you a safe and confidential place to grieve, share, listen and learn from others who have experienced similar losses.

Topics covered will include:

1. Suicide grief vs other grief
2. Unresolved grief and stuck emotions
3. Relationships—impact on family and friendships
4. Coping strategies both positive and negative

7 Sessions/Weekly support group, final week to end with a vigil. This group is limited to 8 participants for individuals 16 years and older.

**Next session begins Tuesday, October 29, 2019
4:30 p.m. to 6:15 p.m.**

**Please contact Lanark Leeds & Grenville
